Swissphone Wireless AG
Fälmisstrasse 21
CH-8833 Samstagern

1.4 Declaration of conformity

The device complies with the European Radio Directive RED 2014 / 53 / EU (Radio Equipment Directive). You can request a copy of the declaration of conformity at info@swissphone.com.

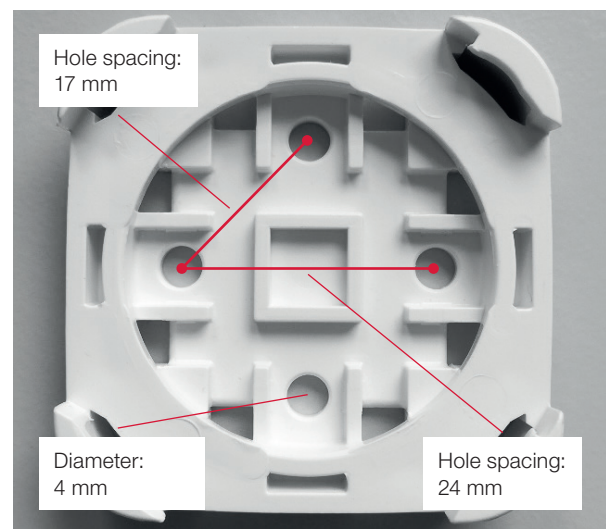

1.5 Disposal

The operator is obliged to comply with local laws regarding equipment and battery disposal. This applies in particular to the decommissioning of the device as well as to battery replacement.

2 Installation and maintenance

2.1 Assembly

Loosen the SOS-Beacon from the base by turning it 1/8 turn counterclockwise. Tighten the base by means of 1-2 screws, there are 4 prepared holes in the base. Then place the SOS-Beacon on the base and fix it by turning it 1/8 turn clockwise.

2.2 Inserting the battery and changing the battery

Lift up the lid of the beacon, on one side there is a bar to help hold the base plate.

Remove the battery or place the new and full battery in the bottom of the SOS-Beacon housing with the negative pole facing up.

Gently press the cover onto the SOS-Beacon until it clicks into place.

ATTENTION

Observe precautionary measures regarding the handling of electro-statically sensitive devices. Do not touch the circuit board without protection.
